The sample pack contains 3 condoms (tight-fitting, regular and large size) and a sachet of lubricant.</p>

### Flip charts on HIV, viral hepatitis and sexually transmissible infections (A3 size)

ECCQ has developed a set of three A3 flipcharts (HIV/AIDS, viral hepatitis and STIs) to assist health educators working with CALD communities. The flipcharts are a useful resource for health educators, nurses, sexual health clinics, GPs, teachers, youth workers and settlement services. To further adapt the flipchart for CALD clients, you can translate the title pages into the client's preferred language and write them in the white space provided with a whiteboard marker.

PDF versions: free

Printed versions: there is small charge to cover production costs:

Individual flipcharts: \$36 (incl. postage)

3 flipcharts: \$90 (incl. postage)
